

POWERSCHOOL INTEGRATION

Regroup Mass Notification, the award-winning emergency and day-to-day communication platform, offers a seamless integration with PowerSchool to make it easier than ever for District leaders to keep their school communities safe and informed.

ABOUT REGROUP

Our cloud-based, easy-to-use mass notification platform is the top choice of K-12 schools, community colleges, and universities nationwide. We offer a no-nonsense solution with the features schools need to communicate important updates with students, faculty, and parents.

THE MOST WAYS TO SEND & RECEIVE

Regroup offers the most ways to send and receive messages, including our free AlertManager mobile app.

FLEXIBLE MESSAGING, UNLIMITED ADMINS

We offer text, voice, email, and social media messaging to every client, along with an unlimited number of admins and groups in your account.

EMERGENCY ALERTS MADE EASY

When seconds count, pre-programmed QuickPost Templates help you get information out fast.

LOCATION-SPECIFIC MESSAGING

When location matters, notify people in specific areas with Regroup's GeoFence messaging capabilities.

TWO-WAY COMMUNICATIONS

Our enhanced replies functionality means you can get real-time responses to your messages whenever they're needed.

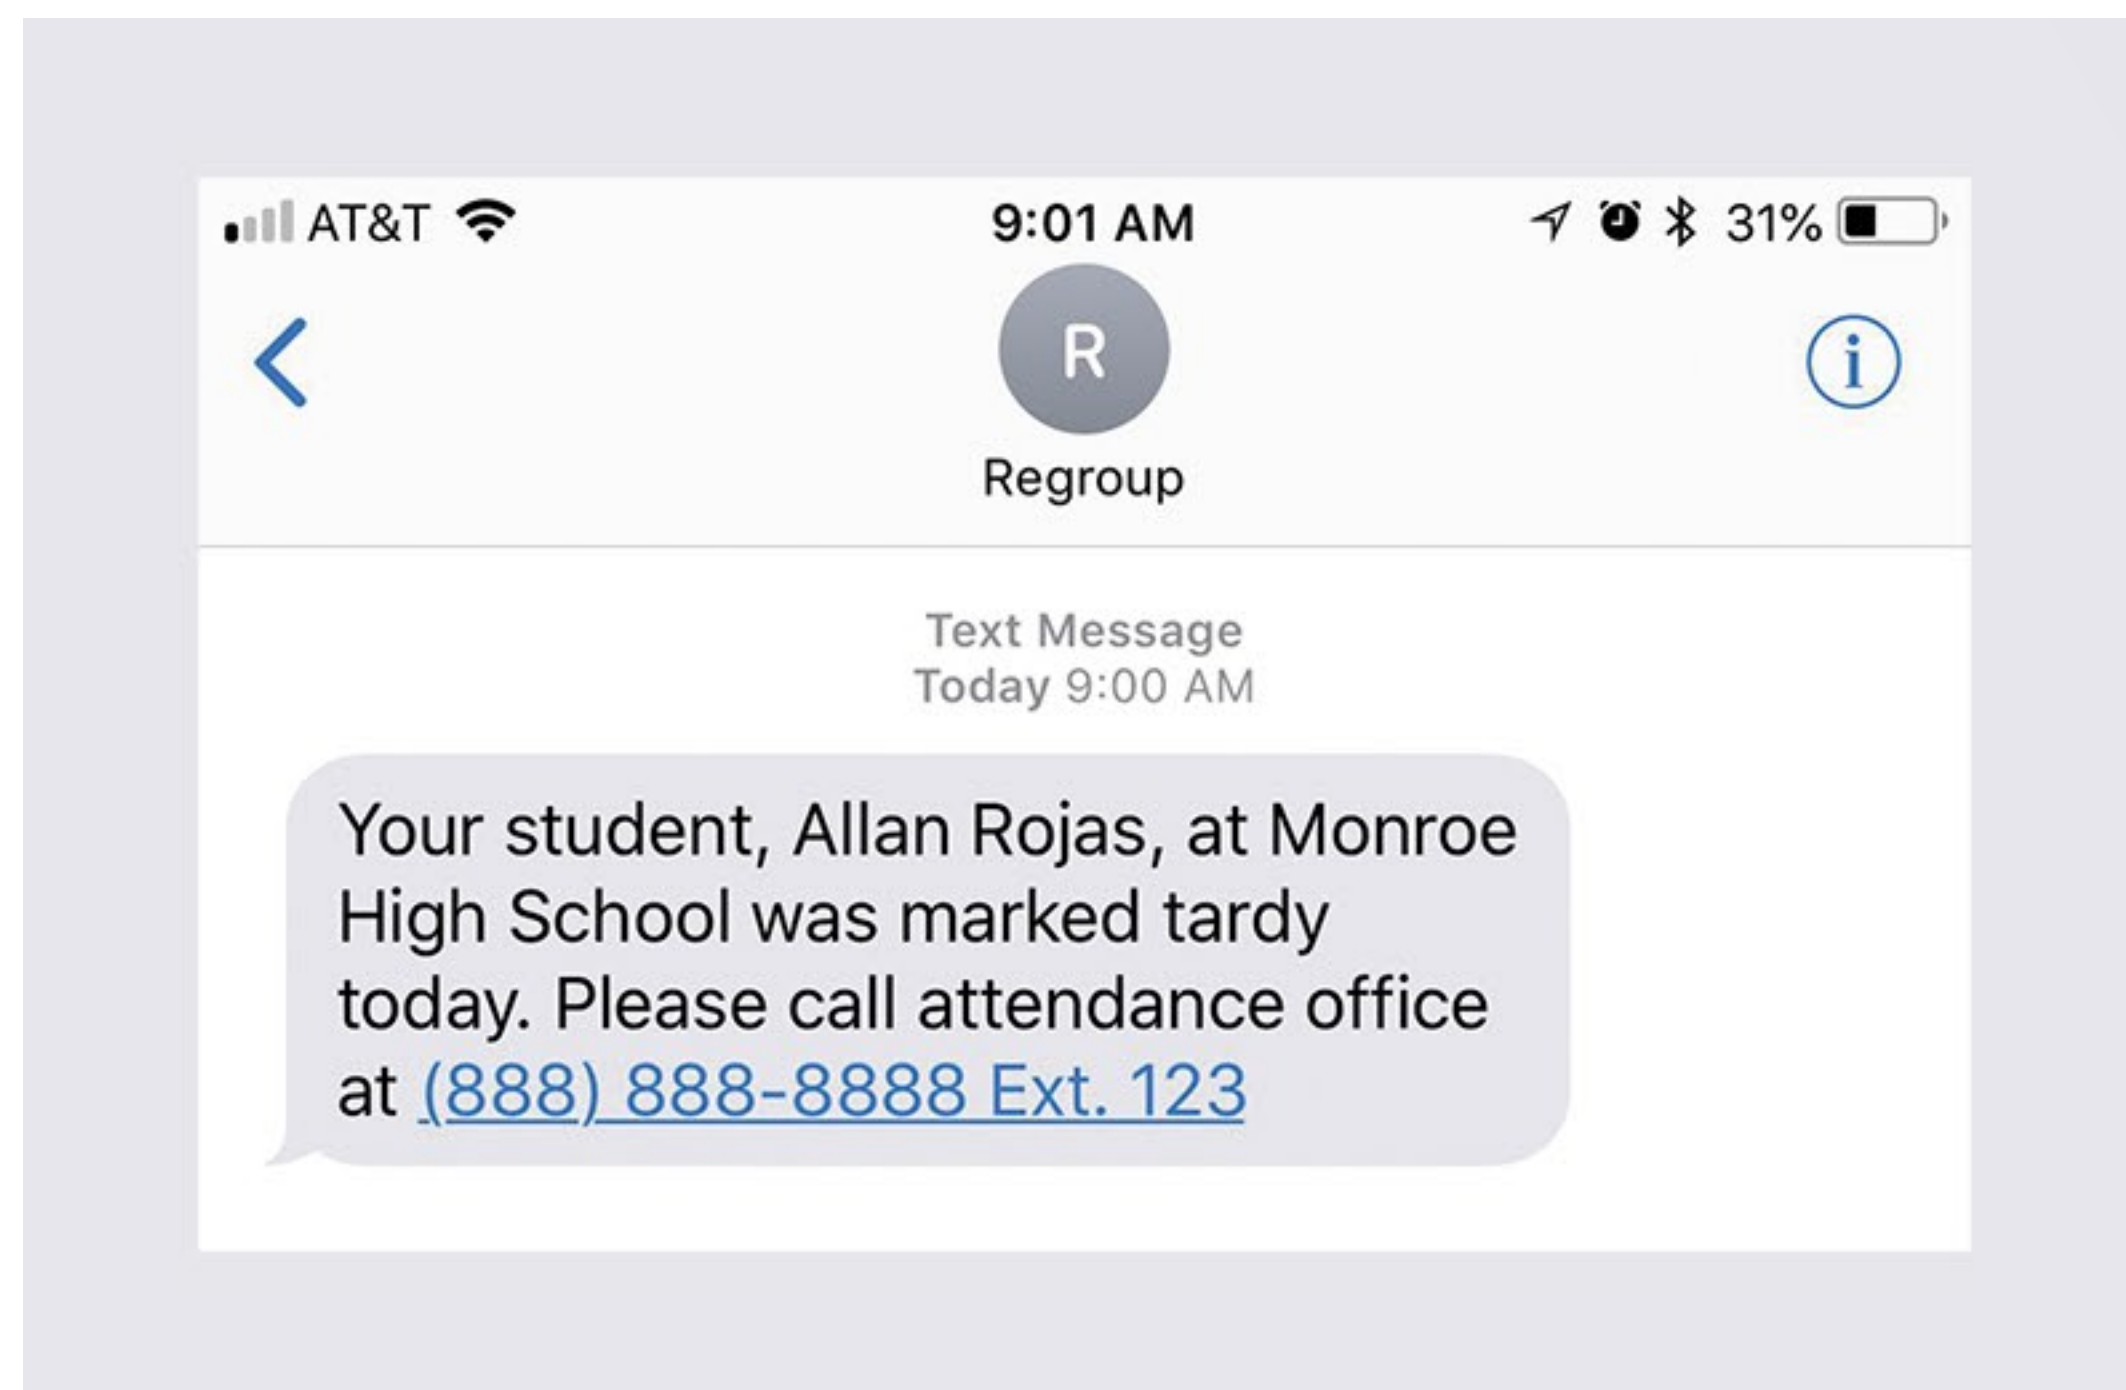

24/7 CLIENT SUPPORT

You'll have a knowledgeable support team by your side to help with onboarding, training, and sending alerts.

POWERSCHOOL INTEGRATION

For districts that use PowerSchool, Regroup offers a flawless user import process where groups are created automatically based on location, grade level, and whether or not the user is an employee. The import can then be scheduled or run on demand, and record updates are fully automated so you never have to purge old data.

Regroup also allows you to automate attendance checks, and can automatically send tardy notifications to the contact info connected with the student via a phone call and text.

An additional benefit is that in a post-emergency situation, administrators can easily look back and see exactly who was present at school.

WHAT OUR CLIENTS SAY

"Regroup provided a solution that allowed us to unify our systems into one that could meet all of our needs, making communication much faster and easier for everyone. In one word, Regroup is a partnership."

Deborah Ludford, District Director of Information Services,
North Orange County Community College District, Anaheim, California
