

REGROUP FOR EDUCATION

IMPROVE SAFETY AND COMMUNICATE BETTER

A SEAMLESS AND RELIABLE MASS NOTIFICATION SYSTEM LIKE REGROUP IS A VITAL TOOL FOR THE EDUCATION SECTOR.

Founded at Stanford University in 2006, Regroup Mass Notification provides an easy-to-use communication solution for schools, colleges and universities. It's our origin in higher education that gives us a unique perspective on the challenges that schools face when trying to communicate on a day-to-day basis, as well as during crisis situations such as severe weather, natural disasters or violent events.

MASS NOTIFICATION BUILT FOR EDUCATION

Universities, Colleges, Districts, and K-12 Schools nationwide use Regroup to keep students and faculty safe while powering better communication with their larger communities. These are the features our education clients love most:

- ✓ **Send & Receive Anywhere:** Reach your audience via email, text/SMS, Regroup's mobile apps, desktop alerts, voice calls, digital signs, PA systems, websites, social media and more.
- ✓ **Easy Text-to-Join:** Enroll and engage your entire community by offering easy text-to-join options for open messaging groups.
- ✓ **Leading LMS Integration:** Managing contact data is easy with our many seamless integrations with the leading learning management systems.
- ✓ **Unlimited Groups & Admins:** Organize your account so teachers can reach their classrooms and leaders can reach larger groups.
- ✓ **TipSafe Anonymous Reporting:** Keep everyone safe by enabling students and faculty to report safety concerns and suspicious activity via text message.
- ✓ **Automated Weather Alerts:** Configure automatic alerts from NOAA and the National Weather Service to keep your school community safe and informed during severe weather.

HOW EDUCATIONAL INSTITUTIONS USE REGROUP

School lockdowns and emergency drills	Attendance reporting to K-12 parents	Enable anonymous safety tips	Promote school events and news
Weather closures and delays	Daily student- teacher communications	Faculty and staff internal notifications	...and much more

“Regroup provided a solution that allowed us to unify our systems into one that could meet all of our needs, making communication much faster and easier for everyone. In one word, Regroup is a partnership. We’ve developed a great relationship in which we’ve developed exciting solutions and we’ve only begun.”

Deborah Ludford - District Director of Information Services,
North Orange County Community College District

POWERFUL PARTNERSHIPS

Regroup integrates with the leading learning management systems to enable you to communicate directly with students and parents while making data management easy.

Canvas: Regroup offers the only embedded mass notification service directly within the Canvas platform, eliminating the need for training on a new tool.

PowerSchool: Over 66 million parents nationwide receive notifications powered by Regroup’s seamless integration with PowerSchool.

Blackboard: Enable faculty, administrators and staff to easily notify the right people, on any device while keeping contact records clean.

Ellucian: Eliminate the need to duplicate contact data and communicate better than ever before with our direct Ellucian integration.
