

# ALERTUS + REGROUP MASS NOTIFICATION

FAST, EFFECTIVE EMERGENCY ALERTING

**Alertus Technologies** and **Regroup Mass Notification** have partnered to bring organizations a comprehensive, unified solution for emergency alerting. Alertus offers a customizable array of emergency notification hardware that can initiate and be triggered by alerts from Regroup's award-winning, cloud-based mass notification platform. Our seamless integration combines the best hardware and software solutions on the market to keep your organization safe and informed at all times.

## HOW IT WORKS

Our two-way triggering means you can configure emergency alerts to work exactly how and when you need them to ensure everyone in your organization has the correct information when seconds count.

### ALERTUS ➡ REGROUP

When an Alertus device like a USB panic button or fire alarm is triggered, they can be configured to notify specified groups in the Regroup Mass Notification system. Immediately alert your on-site security if a panic button is pushed, or notify everyone when a fire-alarm sounds.

### REGROUP ➡ ALERTUS

When a notification is sent out through Regroup's cloud-based platform, Alertus devices can also receive the notification. Use this feature to send important alerts to computer desktops, LED marquee displays, outdoor speaker systems, VoIP phones, digital signage, and more.

# ABOUT REGROUP MASS NOTIFICATION

Regroup's cloud-based mass notification platform is designed to help strengthen your organization's resiliency during a crisis, while also making day-to-day communication easier. Regroup's system can unify your communications into one easy-to-use tool, helping you reduce costs while keeping people safer and more informed.

## FLEXIBLE MESSAGING & ADMINS

Every client gets text, voice, email, and social media messaging, along with unlimited groups, admins, and notification templates in the system.

## THE MOST WAYS TO SEND & RECEIVE

Reach everyone you need through email, text/SMS, push notifications, desktop notifications, and by triggering Alertus hardware devices.

## FREE MOBILE APP

Send alerts from anywhere with only two taps, and enable your recipients to receive your messages in the palm of their hand with Regroup's free, secure mobile app.

## AUTOMATED WEATHER ALERTS

Easily configure alerts from FEMA's Integrated Public Alert & Warning System (IPAWS), NOAA & the National Weather System (NWS), ShakeAlert early earthquake warnings, and more.

## TWO-WAY COMMUNICATIONS

Regroup allows you to ask for status updates or request responses through a variety of channels, and recipients can respond to give you the information you need.

## EASY IMPLEMENTATION

Regroup will help you setup your account, import your contacts, create message templates, and even offer a free transitioning period from your current system.

## GEOTARGETED ALERTING

When location matters, notify people in specific areas with Regroup's multiple GeoTargeted messaging options.

## COMPREHENSIVE ANALYTICS

Easily confirm delivery of alerts to ensure your message has been received. You can also be alerted in real time of any delivery issues.

## 24/7 CLIENT SUPPORT TEAM

You'll have a knowledgeable support team by your side to help with onboarding, training, and sending alerts anytime you need them.
