HOW ORGANIZATIONS USE REGROUP + THREAT INTELLIGENCE

ENTERPRISE

To stay informed of potential cyber threats, improve security protocols based on data, alert and manage IT efforts to protect assets.

HEALTHCARE

To receive timely COVID-19 outbreak data, monitor civil unrest scenarios, alert specific teams and send notifications of shift coverage needs.

FINANCIAL SERVICES

To stay informed about active threats to continuity and security, monitor local crime trends, alert IT and security teams of potential threats before they happen.

SECURITY COMPANIES

To gain actionable insights on crime trends, receive alerts during severe weather, active shooter situations and other threats to clients and patrons. Discreetly send notifications to team members and stakeholders.

THE BEST TOOLS TO PREPARE, RESPOND AND MANAGE

Regroup’s award-winning platform allows you to send up to

540,000
