

FOR GOVERNMENT

Regroup's powerful, easy-to-use mass notification platform helps government agencies—from cities and counties to police and fire departments—communicate quickly, clearly, and effectively during emergencies and daily operations.

Smarter Alerts. Safer Communities.

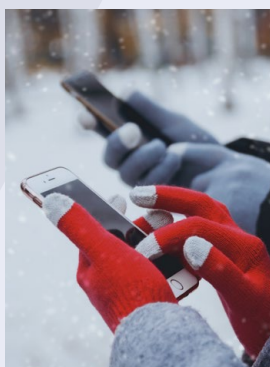

Direct Communication with Citizens and Staff

Whether you need to keep citizens informed about important events, ensure the safety of your mobile workforce, or streamline shift management, deliver messages to recipients' preferred channels (text, phone call, or email).

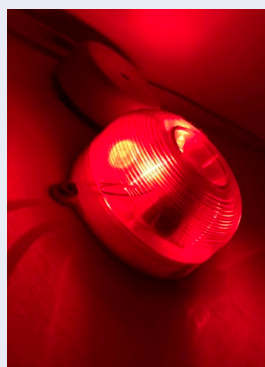

Integrated Public Alert & Warning System (IPAWS)

Ensure rapid community response with Regroup's IPAWS integration, which enables approved authorities to send geotargeted alerts for severe weather, Amber Alerts, and other emergencies.

Automated Weather Alerts

Receive and send automatic alerts from NOAA and NWS for weather-related emergencies to minimize disruption and maintain safety throughout your community.

Infrastructure Integration

Integrate Regroup with highway signage, warning sirens, and other infrastructure for a unified approach to community notification.

Regroup is user-friendly, reliable, and easy to train on. We especially value the ability to send targeted messages to specific groups or broadcast to all when needed.

— **Michael Bean**, Emergency Management Coordinator, Adams County, CO.

Features Built for Government Needs

Government sectors like correctional facilities, utility companies, tribal nations, and state and local agencies, rely on Regroup to enhance safety and communication in their communities. Here are some of the most popular features among our government clients:

Community Reach: Expand your reach to the broader community by adding Community Reach Verified Resident Data to your account and enabling text-to-join signup paths for residents.

Multi-Channel Alerts: Target your audience via multiple unique communication channels, including email, text messages (SMS), the Regroup mobile app, push notifications, digital signage, voice calls, social media, and more.

Unlimited Groups: Save time by organizing recipients into unlimited groups, customizing messages, and sorting users by department, region, role, and more for fast, targeted communication.

Geofencing: Target alerts by location to help people respond correctly based on their location, and set alerts for people entering and exiting specific areas.

Two-Way Communication: Empower community engagement with real-time feedback, fostering dynamic interaction between government and citizens.

Customizable Templates: Pre-configured templates and form fields simplify dispatcher activation for accurate emergency response during lockdowns, closures, power outages, or any other disruption.

Text-to-Join Delivery: Engage your community with simple opt-in messaging groups and send messages to specific groups or entire communities in just a few clicks.

Multi-Language Support: Automatically translate notifications into more than 130 languages based on recipients' device settings for effective communication across your government agency.

Regroup Mobile App: With the free Regroup mobile app, administrators can keep staff informed and easily reach recipients from any location, enabling immediate messaging access.

Unlimited, 24/7 Customer Support: Count on Regroup as your dedicated partner in government communications, providing free training and 24/7 support for your notification system.

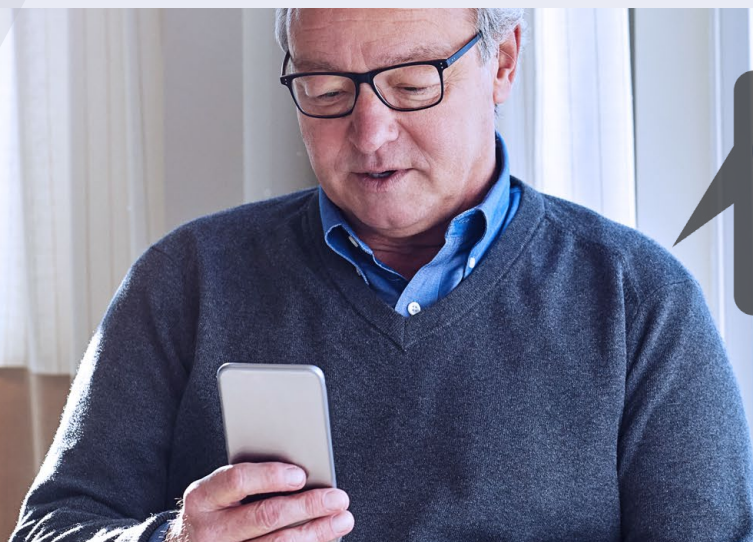

Audit Trails & Reporting: Access detailed communication records to maintain transparency, learn from events, and meet compliance requirements.

Severe Weather Alert

A tornado is approaching.
The time to take shelter is NOW.
Please confirm your status.

Stay safe!

Versatile Use Cases

Regroup's multi-channel communication solution ensures you can reach citizens, employees, and visitors across all sectors. Whether for emergencies or daily operations, here are a few government and public services using Regroup.

- **Cities & Counties:**
Ensure mobile workforce safety, streamline shift management, and optimize operational costs with Regroup.
- **Police & Fire:**
Keep your department coordinated, fill shifts, and improve emergency response with faster, effective communication.
- **State & Local Government:**
Regroup facilitates communication and coordination across government departments and agencies, enhancing public safety and service delivery.
- **Utilities & Corrections:**
Keep customers informed during maintenance or utility-related disruptions and manage communication with dispersed employees.
- **Tribes & Nations:**
Enhance community awareness with notifications about events, health notices, road closures, and severe weather warnings.

Trusted by Local Governments

“ Compared to our previous system, Regroup is hands down easier to use.
Alana Pack, Deputy Director, Comanche County Emergency Management.
